

McMillan Electrolyte

A palatable blend of essential electrolytes for all performance horses. Formulated to ensure electrolytes are provided in the correct proportion to replace those lost in sweat by horses during intense exercise.

Available in 3kg buckets.

DOSE RATE & ADMINISTRATION

Feed between 50g and 100g daily according to workload, sweat loss, ambient temperature and humidity.

These recommendations are for horses with a mature bodyweight of 500kg.

Please adjust according to the weight of your horse.

Mix McMillan Electrolytes well with feed and split larger serves between feeds.

50g can be administered orally in water following intense work such as racing, eventing and endurance.

CONTAINS PER 50G
